Only 6 awards are presented annually at the Conference. Congratulations!

## **List Server for Conservation Tillage Discussion Forum**

**GCTA** is establishing a list server to provide a forum for discussion of issues and topics among the GCTA members and others. The goals for the list are (1) to provide a timely forum for the exchange of information on conservation tillage (equipment, cover crops, pest concerns, etc), (2) to provide a mechanism for GCTA to disseminate relevant information to participants, and (3) to maintain active and current linkages among practitioners and researchers in conservation tillage.

**John Ruberson** is leading this effort. To subscribe to the list, one must send an e-mail to: [listserv@tifon.cpes.peachnet.edu](mailto:listserv@tifon.cpes.peachnet.edu) and in the body of the message type (without the quotation marks): "subscribe ga-contill [your name]". Similarly, to unsubscribe, send an e-mail to the same address, but with a message "unsubscribe ga-contill" again without the quotation marks.

Please note that if you auto-reply to a message, it will go out to the entire list. If you wish to send a private message, you will need to be sure you select the proper reply address, otherwise everyone on the list will be able to read it. We want to keep the chit-chat to a minimum, but at the same time we would like to keep the group interacting on a friendly and comfortable level.

Contact John at 229-386-3374 or [ruberson@tifon.cpes.peachnet.edu](mailto:ruberson@tifon.cpes.peachnet.edu).
