### Southern Conservation Tillage Conference

The 25<sup>th</sup> Annual Southern Conservation Tillage Conference for Sustainable Agriculture was held in Auburn, AL from June 24-26, 2002. It was a great conference and was well attended.

The Conference Committee, led by **Dr. Wayne Reeves**, **Dr. Randy Raper**, and **Kirk Iversen**, did an outstanding job. Several GCTA members participated. **Lamar Black**, GCTA President, spoke on the "*Past, Present, and Future of Conservation Tillage: U. S. A. Farmer Perspective*".

Dr. Wayne Reeves and his grandson at one of the field day tour stops.

The 26<sup>th</sup> Annual Conference will be hosted by **Texas A&M University**, **June 16-18, 2003**.

### Proceedings on CD

A valuable thing done this year for the 25<sup>th</sup> Annual Southern Conservation Tillage Conference was the placing of the proceedings of all of the 25 annual conferences on CD-ROM. We appreciate all who made this possible.

A few copies of the CD are available. If you want a copy of the CD, contact James E. Dean @ 706-546-2090 or [james.dean@ga.usda.gov](mailto:james.dean@ga.usda.gov).

### Wayne Reeves is Transferring to Georgia

**Dr. Wayne Reeves**, USDA-ARS Research Agronomist at the National Soil Dynamics Laboratory in Auburn, AL will be moving to Georgia in September. Dr. Reeves will become the Research Leader at the J. Phil Campbell, Sr. Natural Resource Conservation Research Center in Watkinsville.

The Center, formerly called the Southern Piedmont Conservation Research Center, serves the Southern Piedmont Major Land Resource Area. The Southern Piedmont includes part of Alabama, Georgia, South Carolina, North Carolina, and Virginia and has a long

history of valuable soil and water conservation research. The P1 Watershed is located there.

Dr. Reeves has helped GCTA many times. We look forward to his move to Georgia.
